ABSTRACT

An advanced General Education Program has been designed to prepare an individual with the information, concepts, and general knowledge required to successfully pass the American Council on Education's High School General Education Development (GED) Test. The Advanced General Education Program provides comprehensive self-instruction in each of the following areas: (1) Correctness and effectiveness of Expression, (2) Social Studies, (3) Natural Sciences, (4) Interpretation of Literary Materials, and (5) General Mathematics. This document is a Teacher's Answer Key. (CK)

NOTE TO INSTRUCTOR

1. The answer keys in this booklet are provided for the teacher's use in placing students in the instruction, for evaluating progress, and for identifying areas where additional work is necessary.

2. Each test has been provided with a point scale system similar to that used in the self-scoring mastery tests used by students. The number of starred items correctly marked or left unmarked multiplied by the figure at the bottom of the answer key will give the student's percentage score for the test.

3. Pass-fail criteria have been set for the Screening Tests, since these determine whether a student will take or skip a unit of instruction. No such criteria have been set for the Unit Tests because of insufficient data. However, instructors should examine items missed on the Unit Tests with great care to determine whether a pattern of wrong answers indicates that the student has failed to understand or remember a particular lesson, and to provide for appropriate review or supplementary instruction.

4. Although no space is provided on the Progress Flow Chart, UNIT TEST PERCENTAGE SCORES SHOULD BE RECORDED AT THE UPPER RIGHT SIDE OF THE DIAMOND ON THE FLOW CHART THAT DESIGNATES THAT PARTICULAR UNIT TEST.

ANSWER KEYS

Note to Scorer: Since this test is not intended to measure the student's facility with large numbers, do not penalize the student for an answer with an incorrect number of zeroes. Student should receive credit so long as it is apparent that he has responded to the correct place on the chart or graph. For example, if correct answer on graph question is 340 million, do not penalize student for answering 340,000 or 3,400,000. Student should receive credit if number 340 appears in his answer.
